Colloquium organized in honour of Engr. O.T. Anyaeji

17th
April,
2026

Engr. O. T. Anyaeji (FNSE, FAEng), Engr. Caius Ikem Umekesiobi, National Chairman of the Nigerian Institution of Environmental Engineers (NIEE) and some other notable personalities at the colloquium

The Technical Colloquium held in Abuja in honour of Engr. O.T. Anyaeji (FNSE, FAEng) to mark his 75th birthday was a remarkable convergence of excellence within the engineering profession.

The event was graced by the National Chairman of the Nigerian

Institution of Environmental Engineers (NIEE), Engr. Caius Ikem Umekesiobi, whose presence and active participation underscored the importance of celebrating impactful leadership and professional legacy within the engineering community.

The colloquium provided a platform for intellectual engagement, reflection, and appreciation of Engr. Anyaeji's immense contributions to engineering practice and national development. His legacy continues to inspire both emerging and established professionals across the country.

Monthly General Meeting. NIEE Edo State chapter

17th
April,
2026

**The Nigerian Institution of Environmental Engineers (NIEE), Edo State Chapter, Benin Branch, convened its Monthly General Meeting on 17 April 2026, featuring an insightful technical presentation on "Technology Integration in Climate Change Mitigation Strategy." The lecture was delivered by Prof. Beckley Ikhajagiabe, who explored the critical role of emerging technologies in addressing climate change through innovative, sustainable, and data-driven environmental solutions.

The session provided members with valuable insights into how technological advancements can strengthen climate resilience, improve environmental management practices, and support sustainable development. The meeting also fostered professional engagement among members, reaffirming the Chapter's commitment to promoting knowledge sharing and advancing environmental engineering practice in Nigeria.

Awesome moment with Prof. Beckley Ikhajagiabe.

Presentation of Awards to Prof. Beckley Ikhajagiabe. by the State Chairman, Engr. Ilaboya Adebayo Iriafen

Happy Birthday to an Environmental Hero

The Nigerian Institution of Environmental Engineers celebrates an exceptional leader, Ali Alimasuya Rabiu, on the occasion of his birthday.

Your dedication to advancing engineering practice and strengthening professional excellence in Nigeria continues to inspire the entire engineering community. Your leadership at the Nigerian Society of Engineers has set a remarkable standard for impact, innovation, and service.

As you mark another year, we wish you continued grace, sound health, and greater accomplishments in steering the profession to new heights.

Cheers to more impact and excellence.

HOST

Engr. Dr. K. A. Olaiya, MNSE, FNIEE

Chairman, Nigerian Institution of Environmental
Engineers Oyo State Chapter

The Nigerian Institution of Environmental Engineers (NIEE), Oyo State Chapter, hosted its April 2026 Technical Talk on the theme, "Food and Water Insecurity: Impact on Health and Society." The virtual session featured Dr. Bola Alabi, who examined the far-reaching effects of food and water insecurity on public health and societal

development, while emphasizing the need for sustainable environmental and policy interventions.

Nigeria Must Urgently Overhaul Its Wastewater Systems or Keep Losing 70,000 Children a Year — Nigerian Academy of Engineering Warns

The Nigerian Academy of Engineering has raised alarm over Nigeria's handling of its wastewater, revealing that more than 70,000 Nigerian children are dying every year from diseases caused by contaminated water.

The warning came at a Public webinar organised by the Nigerian Academy of Engineering (NAEng) Water and Sanitation Committee, chaired by Prof. James Olugbenga Aribisala, on April 29, 2026.

Leading the session, Engr. Babatunde Oshodi, a retired Permanent Secretary with the Lagos State Government, said that less than 10% of Nigeria's domestic wastewater undergoes centralised treatment before they are dumped into the environment; a figure that reflects the chronic collapse of infrastructure, regulation, and political will driving the deaths of tens of thousands of Nigerian children each year from diseases that treated water would prevent...

The event was co-presented by Engr Yusuf Majolagbe, National Secretary General at the Nigerian Institution of Environmental Engineers and attended by many distinguished Engineering leaders, policy makers, the Nigerian Society of Engineers, Council for the Regulation of Engineering and the Fellows' of Nigerian Academy of Engineering. Among them are: Engr Ali Rabi, NSE President, Engr Prof Abubakar Sadiq, COREN President, Engr. Prof A. A. Bello, past COREN Registrar, Engr Kashim Ali, Past NSE President, Engr. Chrisy Adelowo, Hon Executive Secretary of the Academy, Prof J.O. Aribisala, Chair of Environment Committee and VC, Federal University of Technology and Environmental Sciences, Engr. Temitayo Okunoren-Makindipe among others.
